

**SUBJECT – ENGLISH CORE**

Month	Name of Chapter	Objective/Aim
April	Reading: Comprehension Passage	To enhance comprehension skill
	Writing: Notice	To impart the skill of notifying specific information
	Report Writing	To enhance the skill of critical thinking and presenting ideas in a coherent manner
	The Last Lesson (L-1)	To arouse patriotic feeling and love for mother tongue
	Lost Spring (L-2)	To create awareness about the hazards of child labour
	Mother At Sixty-Six (P-1)	To kindle care and concern for ageing parents
	Third Level (S-1)	To make students aware about the intermingling of present and past, as a way to escape from anxiety and tension.
	Tiger King (S-2)	To point out problems caused by conceit of those in power
May	Reading Comprehension	To enhance comprehension skill
	Writing: Invitation/Replies (Formal)	To develop the skill of extending cordial request to invite, accept or decline the invite
	Writing: Letters to Editor	Skill of corresponding through written communication
	Deep Water (L-3)	To promote 'never say die' spirit
	Journey Towards the End of the Earth (S-3)	To point out the relevance of educational tours to understand global issues.
	The Enemy (S-4)	To promote humanitarian approach and discard enmity
July	Reading Comprehension	To enhance comprehension skill
	Writing: Letters- Job Application	Skill of corresponding through written communication
	Indigo (L-5)	To highlight the role of Gandhi Ji and Champaran episode in Independence movement.
	The Rattrap (L-4)	To understand the value of honesty, kindness, compassion
	Keeping Quiet (P-3)	To highlight the importance of introspection and mutual understanding
August	Reading Comprehension	To enhance comprehension skill
	Writing: Invitation/ Replies (Informal)	To develop the skill of extending cordial request to invite, accept or decline the invite
	Poets and Pancakes (L-6)	To appreciate the struggle of people related to film industry.
	A Thing of Beauty (P-4)	To explore and enjoy the sensual beauty of nature
	The Roadside (P-5)	To draw attention towards the problems of unprivileged people of the society
	On the Face of it (S-6)	To draw attention towards the problems of physically challenged people
September	Reading Comprehension	Revision
	Writing: Speech/Debate	To develop skill of putting forth arguments both in favour or against the topic
	Aunt Jennifer's Tigers(P-6)	To create awareness about problems related to gender discrimination
	The Interview (L-7)	To introduce the concept of Interview in the arena of journalism.
October	Reading Comprehension	Revision
	Writing Skills	Revision
	Going Places (L-8)	To create awareness about the harms of over fantasizing and hero worshipping
November	Reading: Comprehension	Revision

	Writing: Report	Revision
	Writing: Article	To enhance the skill of critical thinking and presenting ideas in a coherent manner
	Letter Writing	Revision
	Memories of Childhood (S-8)	To generate awareness about issues related to caste and creed discrimination
December	Pre-Board I	Complete Syllabus
January	Pre-Board II	Complete Syllabus

Exam Syllabus

Terminal	Half Yearly	Pre-Board I	Pre-Board II
Reading Comprehension, Notice, Letter to Editor, Report Writing (School Magazine) Literature- The Last Lesson, Lost Spring, My Mother at 66, Keeping Quiet, The Third Level, Tiger King	Reading Comprehension, Notice, Invitation (Formal & Informal) & Replies, Letter to Editor, Job Application. Report Writing (School Magazine & Newspaper) Literature- The Last Lesson, Lost Spring, Deep Water, The Rattrap, Indigo, Poets and Pancake, My Mother at 66, Keeping Quiet, A Thing of Beauty, The Third Level, Tiger King, Journey to the End of the Earth, The Enemy Internal Assessment- ASL & Project	Reading Comprehension, Notice, Invitation (Formal & Informal) & Replies, Letter to Editor, Job Application. Report Writing (School Magazine & Newspaper) Literature- The Last Lesson, Lost Spring, Deep Water, The Rattrap, Indigo, Poets & Pancakes, The Interview, Going Places, My Mother at 66, Keeping Quiet, A Thing of Beauty, Aunt Jennifer's Tigers, A Roadside Stand The Third Level, Tiger King, Journey to the End of the Earth, , On the Face of It, Memories of Childhood	Complete Syllabus

**SUBJECT – GEOGRAPHY**

Month	Name of the Chapter	Objective/Aim	Subject Enrichment Activity	Project
April	Fundamentals Of Human Geography (Book 1) CH-1 Human Geography Nature and scope	To understand the fields and sub fields of Human Geography		
	Fundamentals Of Human Geography (Book 1) CH-2 World Population	To understand the age structure, sex ratio, rural- urban distribution in World		
	India People and Economy (Book 2) CH-1 Population: Density, Growth and Composition	To understand the age structure, sex ratio, rural- urban distribution in India	Map work	
	Practical Work in Geography-II CH-1 Data – Its source and compilation	Type and sources of data: Primary, Secondary and other sources		C.B.S.E. based Project file from given topics/ chapters.
May	Fundamentals Of Human Geography (Book 1) CH-3 Human Development	To understand the concept of human development with reference to population ratio, literacy and occupational structure	Map work	
	India People and Economy (Book 2) CH-2 Human Settlements	To understand the types and distribution of settlements		
	Practical Work in Geography-II CH-2 Data Processing	Tabulating and processing of data, measures of central tendency		C.B.S.E. based Project file from given topics/ chapters.
	Practical Work in Geography-II CH- 3 Graphical Representation of data	General rules for drawing graphs, diagrams and maps		
July	Fundamentals Of Human Geography (Book 1) CH-4 Primary Activities	To understand the types and distribution of agricultural practices around the globe	Map work	
	Fundamentals Of Human Geography (Book 1) CH- 5 Secondary Activities	To understand the growth and development of various types of industries, Industrial regions		
	India People and Economy (Book 2) CH-3 Land Resources and Agriculture	To understand the land use categories and agricultural land use in India, crop distribution	Map work	
	India People and Economy (Book 2) CH-4 Water Resources	To understand the importance of water as a resource	Map work and case study	

August	Fundamentals Of Human Geography (Book 1) CH- 6 Tertiary and Quaternary Activities	To understand the growth and development of various types of industries.		
	Fundamentals Of Human Geography (Book 1) CH-7Transport and Communication	To understand the different types of means of transport and communication connecting countries of the world	Map work	
	India People and Economy (Book 2) CH-5 Mineral and Energy Resources	To understand the distribution and economic importance of different types of minerals	Map work and case study	
	India People and Economy (Book 2) CH-6 Planning and Sustainable Development in Indian Context	To understand the importance of planning and sustainability for the development of an area	Case studies	
September	Fundamentals Of Human Geography (Book 1) CH- 8 International Trade	To understand concerns related to international Trade		
	India People and Economy (Book 2) CH-7Transport and Communication	To understand the different types of means of transport and communication connecting important centres across India.	Map work	
Revision and Half Yearly Examination				
October	India People and Economy (Book 2) CH-8 International Trade	To understand the changing patterns of composition of India's trade	Map work	
	India People and Economy (Book 2) CH-9 Geographical Perspective on Selected Issues and Problems	To understand the causes and consequences of different types of pollution, measures to be taken	Case study	
	Practical Work in Geography-II CH-4Use of Computer in Data Processing and	Hardware and software usage		C.B.S.E. based Project file from given topics/ chapters.
November	Revision and Preboard-I			
December	Revision and Preboard-II			
January	Revision			
February	Revision			

**Exam Syllabus**

Terminal	Half Yearly	Pre-Board I	Pre-Board II
Book 1: CH- 1, 2 Book 2: CH- 1, 2	Book 1: CH-1,2,3, 4 Book 2: CH-1, 2, 3	Book 1 & 2 Complete syllabus	Book 1 & 2 Complete syllabus

Celebrating 75 Years

**SUBJECT – POLITICAL SCIENCE**

Month	Name of the Chapter	Learning Objective/Outcome	Enrichment Activities
BOOK-1- Contemporary World Politics & BOOK-2- Politics in India Since Independence			
April	B2 Ch 1- Challenges of Nation-Building B2 Ch 2 -Era of One-Party Dominance B2 Ch 3. Politics of Planned Development	Nation and Nation Building. Sardar Vallabh Bhai Patel and Integration of States. Legacy of partition: challenge of ‘refugee’ Resettlement. Political conflicts over language. Linguistic Organization of States. Changing nature of India’s Economic Development Planning Commission and Five-Year Plans, National Development Council, NITI Aayog. Two models of development Design or plan of development. Aims and objectives of the first two five-year plans. • Replacement of Planning Commission by National Institution for Transforming India (NITI Aayog)	Quiz
May	B1 Ch1- The End of Bipolarity B1 Ch 2 - Contemporary Centres of Power B1 Ch 3 Contemporary South Asia	Disintegration of Soviet Union, Unipolar World, Middle East Crisis – Afghanistan, Gulf War, Democratic Politics and Democratization – CIS and the 21st Century (Arab Spring) Organizations: European Union, ASEAN, SAARC, BRICS. Nations: Russia, China, Israel, India, Japan and South Korea Conflicts and efforts for Peace Democratization in South Asia: Pakistan, Nepal, Bangladesh, Sri Lanka, Maldives.	Cbse Project
July	B2 Ch 4-India’s External Relations B1 Ch 4 - International Organizations	Principles of Foreign Policy; India’s Changing Relations with Other Nations: US, Russia, China, Israel; India’s Relations with its Neighbours: Pakistan, Bangladesh, Bhutan, Nepal, Sri Lanka and Myanmar; India’s Nuclear Programme. Principal Organs, Key Agencies: UNESCO, UNICEF, WHO, ILO, Security Council and the Need for its Expansion.	Youth Parliament
August	B1 Ch 5 Security in the Contemporary World. B1 Ch 6 - Environment and Natural Resources B2 Ch 5. Challenges to Restoration of the Congress System	Security: Meaning and Types; Terrorism. Environmental Movements, Global Warming and Climate Change, Conservation of Natural Resources. Challenge of Political Succession after Nehru • Split in Congress and opposition unity. New Congress led by Indira Gandhi • Restoration of the Congress system.	Presentation
September	B1 Ch 7- Globalization B2 Ch 6.- The Crisis of Democratic Order	Globalization: Meaning, Manifestation and Debates One Party Dominance, Total Revolution, Ram Manohar Lohia and Socialism, National Emergency, Democratic Upsurges	

October	B2 Ch 7- Regional Aspirations B2 Ch 8 -Recent Developments in Indian Politics	Rise of regional parties. Punjab Crisis. The Kashmir Issue, Movements for Autonomy. Era of Coalitions, National Front, United Front, United Progressive Alliance (UPA) – I & II, National Democratic Alliance (NDA) I, II, III & IV, Issues of Development and Governance.	Debate
November	Pre-Board and Revision		

Exam Syllabus

Terminal	Half Yearly	Pre-Board I	Pre-Board II
Book 1: CH - 1, 2 Book 2: CH – 1, 2,3	Book 1: CH -1,2, 3,4,5,6 Book 2: CH – 1,2,3,4,5	Complete syllabus	Complete syllabus

**SUBJECT – ECONOMICS**

Month	Name of the Chapter	Objective/Aim	Subject Enrichment Activity	Project
April	Circular flow of income Some basic concepts of Macro Economics Indian Economy on the eve of independence	To acquainting the students with circular flow of money in two sector economy, --real and money flow To familiarize the students with the meaning of Meaning of Macro Economics, some basic concepts, Meaning of real and nominal National Income To familiarize the students with the state of Indian economy at the time of independence & its main features. Problems and policies of agriculture. industry and foreign trade	Prepare a presentation on the treatment of various items in the calculation of domestic and national income	
May	Measurement of National Income Indian economy (1950-1990)	To make the students acquainting about GDP and its related aggregates, Value of output and value added' Three methods of calculating N.I. Income, Expenditure and Product method Students will come to know about the long-term objective of our plans to develop all the aspects of the Economy		Project
July	Money and Banking Determination of Income and employment Economic reforms since 1991	To enhance the knowledge of the students regarding Money—Its meaning. Supply of money. Money creation by commercial Banks. Central Banks—Meaning and its functions Aggregate Demand and its components, propensity to consume and save, Investment multiplier To acquainting the students regarding the need and features of LPG policy	Class presentation over fiscal and monetary measures to combat the situation of inflation and deflation.	
August	Determination of Income and employment Human capital formation Rural Development	Short term equilibrium, Meaning of full and involuntary unemployment Problem of excess and deficient demand, measures to correct it—Fiscal and monetary policy To make the learners aware regarding the meaning of human capital, human capital formation, its sources, Importance of education To make the learners aware regarding the current challenges faced the Indian economy with reference to rural development	Process of multiplier will be explained through class activity	
September	Employment	Employment-Growth, informalisation and other issues Revision & Half Yearly - Examination	Prepare a report on various schemes launched by Government to	

			create job opportunities	
October	Budget and the Economy Balance of payment Environment and sustainable development Development experience of India: A comparison with neighbors	To develop Awareness among Students about Meaning, objectives, components Revenue and capital Budget, Budget Deficit Revenue, Fiscal and Primary deficit BOP account-meaning and component Foreign Exchange Rate—Meaning of fixed, floating and managed floating exchange rate, Determinants of exchange rate in a free market. Environment and sustainable development—effects on economic development on resources and environment. To develop the awareness among students regarding comparative development of India and its neighboring countries other issues	information regarding ex rate between rupee and major currencies of the world Approximately 70 lakh vehicles are added on roads of metropolitan cities. Which type of resources do you think are undergoing depletion and related problems? Prepare report on it.	
November	Revision and Pre-Board 1			
December	Revision and Pre-Board 2			
January	Revision and Board Practicals			
February	Revision and Board Exams			

Exam Syllabus

Terminal	Half Yearly	Pre-Board I	Pre-Board II
Macro Eco Chap 1- 4 IED Chap 1-2	Macro Eco- Unit 1-3 IED Chap 1 - 5	Complete Syllabus	Complete Syllabus

**SUBJECT – MATHEMATICS**

Month	No. and Name of Chapter	Learning Objective	Enrichment Activities
April	Ch-3: Matrices	Use of matrix in the nature of solutions of systems of simultaneous equations.	
	Ch-4: Determinant	To learn about determinant and their uses in different areas	1.To solve the linear equations using matrix method
	Ch-1: Relations and Function	To understand the different types of relations and functions along with their co-domain and range.	2.To verify that the relation R in the set L of all lines in a plane, defined by $R = \{(l, m) : l \parallel m\}$ is an equivalence relation. 3.To verify that function is one-one but not onto 4.To verify that function is not one-one but onto
	Ch-2: Inverse Trigonometry Function	To understand the behaviour of inverse trigonometric function which plays very important role in calculus.	
May	Ch-5: Continuity and Differentiability	To clear the concept of continuity and differentiability and their relationship between different types of functions	
	Ch-6: Application of Derivatives	To use derivatives in determining the rate of change of various quantities	5.To understand the concepts of increasing and decreasing functions, 6.To understand the concept of maxima & minima
July	Ch-7: Integration	To solve problems of finding a function whose domain a given	
	Ch-8: Application of Integration	To find the area bounded by the graph of a function under given conditions	7.Calculate the area of the triangle using integration.
August	Ch-8 Application of Integration (CONT...)		
	Ch-9: Differential Equations	To search unknown function that satisfies the equation which contain the derivative of unknown function	
September	Ch-10: Vector Algebra	To study vector, that are helpful in describing and analysing many physical solutions.	
	Revision and Half yearly		
October	Ch-11: Three-Dimensional Geometry	To tell the use of vector algebra in 3D which makes its study simple and elegant.	8. To measure the shortest distance between two skew lines and verify it analytically
	Ch-12: Linear Programming	To determine the optimum values of a linear functions subject to constraints expressed a linear equations or inequalities	9.To solve the Linear Programming Problem graphically.

	Ch-13: Probability	To find the probability of different situations under the given conditions.	10.To explain the computation of conditional probability of a given event A, when event B has already occurred, through an example of throwing a pair of dice
November	Ch-13: Probability (Cont.)		
	Pre-Board I		
December	Revision and Pre-Board II		
January – February	Revision		

Exam Syllabus

Terminal	Half Yearly	Pre-Board I	Pre-Board II
Ch. 1, 2, 3, 4, 5, 6.	Ch. 1 to 10	Complete Syllabus	Complete Syllabus

**SUBJECT – COMPUTER SCIENCE WITH PYTHON**

Month	Chapter Name	Objective / Aim	Lab Activity
March - April	Ch – 1 Review of Python Basics	Revision of the basics of Python topics covered in Class XI (Tokens; simple datatypes; notion of a variable; keywords; operators and their precedence, Conditional statements; Notion of iterative computation and control flow; Lists, tuples, and dictionary; Strings	1. Input a string and determine whether it is a palindrome or not; convert the case of characters in a string. 2. Find the largest/smallest number in a list/tuple 3. Input a list of numbers and swap elements at the even location with the elements at the odd location. 4. Input a list/tuple of elements, search for a given element in the list/tuple. 5. Create a dictionary with the roll number, name and marks of n students in a class and display the names of students who have scored marks above 75.
	Ch – 2 Functions	Functions: scope, parameter passing, mutable/immutable properties of data objects, pass arrays to functions, return values, Functions using libraries: mathematical, and string functions, scope of variables, main() function	1. Write a random number generator that generates random numbers between 1 and 6 (simulates a dice) using functions.
May	Ch – 3 Exception Handling in Python	To make a student understand the concept of Exceptions and how to handle them. Types of errors.	1. WAP using try except block to implement exception and its handling.
	Ch – 4 Data File Handling	File handling: open and close a file, read, write, and append to a file, standard input, output, and error streams, relative and absolute paths, Types of files – Text file, Binary file, CSV file.	1. Read a text file and display the number of vowels / consonants/ uppercase/lowercase characters in the file. 2. Create a binary file with name and roll number. Search for a given roll number and display the name, if not found display appropriate message. 3. Create a CSV file by entering user-id and password, read and search the password for given user-id.
July	Ch – 5 Data Structures in Python	Data-structures: lists, stacks, & various operations associated with it.	1. Write a Python program to implement a stack using list.
	Ch – 6 Computer Networks	Structure of a network: Types of networks, cloud and IoT, public vs. private cloud, wired and wireless networks; concept of a client and server; Network devices such as NIC, switch, hub, router, and access	

		points; MAC address, main idea of routing. IP addresses, routing table, router, DNS, and web URLs, TCP; Protocols: 2G, 3G, 4G, Wi-Fi. Basic network tools; HTTP (basic idea), working of email, secure communication: encryption and certificates (HTTPS), network applications: remote desktop, remote login, HTTP, FTP, SCP, SSH, POP/IMAP, SMTP, VoIP, NFC	
August	Ch – 7 Relational Database and SQL	Relational databases: idea of a database and the need for it, relations, keys, primary key, foreign key; Use SQL commands to create a table, keys, and foreign keys; insert/delete an entry, delete a table. Basic SQL: select, project, SQL commands: aggregation functions, having, group by, order by, joins.	Create a student table and insert data. Implement the following SQL commands on the student table: 1. ALTER table to add new attributes / modify data type / drop attribute 2. UPDATE table to modify data 3. ORDER By to display data in ascending / descending order 4. DELETE to remove tuple(s) 5. GROUP BY and find the min, max, sum, count and average ● Similar exercise may be framed for other cases.
September	Half Yearly Examination		
October	Ch – 8 Interface Python With SQL	Interface Python with an SQL database, connecting SQL with Python, creating database connectivity applications, perform insert, update & delete queries, display data by using fetchone(), fetchall() & rowcount.	Integrate SQL with Python by importing suitable module.
November	Revision		
Project: The aim of the class project is to create something that is tangible and useful using Python file handling/ Python-SQL connectivity. This should be done in groups of two to three students. The aim here is to find a real-world problem that is worthwhile to solve.			

Exam Syllabus

Terminal	Half Yearly	Pre-Board I	Pre-Board II
Ch – 1, 2, 3, 4	Ch – 1 to 7	Complete Syllabus	Complete Syllabus

**SUBJECT – INFORMATICS PRACTICES**

Month	Unit Name	Chapter Name	Objective / Aim	Lab Activity
March & April	Unit 1: Data Handling using Pandas and Data Visualization	Data Handling using Pandas -I	<p>Introduction to Python libraries- Pandas, Matplotlib.</p> <p>Data structures in Pandas - Series and data frames.</p> <p>Series: Creation of series from ndarray, dictionary, scalar value; mathematical operations; series attributes, head and tail functions; selection, indexing and slicing.</p> <p>Data Frames: creation of data frames from dictionary of series, list of dictionaries, text/CSV files, display, iteration. Operations on rows and columns: add add (insert /append) , select, delete (drop column and row), rename, Head and Tail functions, indexing using labels, Boolean indexing, joining, merging and concatenation of data frames.</p> <p>Importing/Exporting Data between CSV files and Data Frames. (For practical's only)</p>	<ol style="list-style-type: none"> 1. Create a panda's series from a dictionary of values and a ndarray 2. Given a Series, print all the elements that are above the 75th percentile.
May & July		Data handling using Pandas – II	<p>Descriptive Statistics: max, min, count, sum, mean, median, mode, quartile, Standard deviation, variance.</p> <p>Data Frame operations: Aggregation, group by, Sorting, Deleting and Renaming Index, Pivoting.</p> <p>Handling missing values – dropping and filling.</p> <p>Importing/Exporting Data between MySQL database and Pandas.</p>	<ol style="list-style-type: none"> 3. Create a Data Frame quarterly sales where each row contains the item category, item name, and expenditure. Group the rows by the category and print the total expenditure per category. 4. Create a data frame for examination results and display row labels, column labels data types of each column and the dimensions. 5. Filter out rows based on different criteria such as duplicate rows. 6. Importing and exporting data between pandas and CSV file
		Data Visualization	<p>Purpose of plotting, drawing, and saving of plots using Matplotlib (line plot, bar graph, histogram, pie chart, frequency polygon, box plot and scatter plot).</p>	<ol style="list-style-type: none"> 1. Given the school result data, analyses the performance of the students on different parameters, e.g subject wise or class wise.

				<ol style="list-style-type: none"> For the Data frames created above, analyze, and plot appropriate charts with title and legend. Take data of your interest from an open source (e.g., data.gov.in), aggregate and summarize it. Then plot it using different plotting functions of the Matplotlib library.
August	Unit 4: Societal Impacts	Societal Impacts	Digital footprint, net and communication etiquettes, data protection, intellectual property rights (IPR), plagiarism, licensing and copyright, free and open-source software (FOSS), cybercrime and cyber laws, hacking, phishing, cyber bullying, overview of Indian IT Act. E-waste: hazards and management. Awareness about health concerns related to the usage of technology.	Explain the impact of technology on society including gender and disability issues.
	Unit 2: Database Query using SQL	Database Query using SQL	Math functions: POWER (), ROUND (), MOD (). Text functions: UCASE ()/UPPER (), LCASE ()/LOWER (), MID ()/SUBSTRING ()/SUBSTR (), LENGTH (), LEFT (), RIGHT (), INSTR (), LTRIM (), RTRIM (), TRIM (). Date Functions: NOW (), DATE (), MONTH (), MONTHNAME (), YEAR (), DAY (), DAYNAME (). Aggregate Functions: MAX (), MIN (), AVG (), SUM (), COUNT (); using COUNT (*). Querying and manipulating data using Group by, Having, Order by. Operations on Relations - Union, Intersection, Minus, Cartesian Product, JOIN (Cartesian Join, Equi Join, Natural Join)	<ol style="list-style-type: none"> Create a student table with the student id, name, and marks as attributes where the student id is the primary key. Insert the details of a new student in the above table. Delete the details of a student in the above table. Use the select command to get the details of the students with marks more than 80. Find the min, max, sum, and average of the marks in a student marks table. Find the total number of customers from each country in the table (customer ID, customer Name, country) using group by.

				7. Write a SQL query to order the (student ID, marks) table in descending order of the marks
October & November	Unit 3: Introduction to Computer Networks	Introduction to Computer Networks	Introduction to networks, Types of networks: LAN, MAN, WAN. Network Devices: modem, hub, switch, repeater, router, gateway Network Topologies: Star, Bus, Tree, Mesh. Introduction to Internet, URL, WWW, and its applications- Web, email, Chat, VoIP. Website: Introduction, difference between a website and webpage, static vs dynamic web page, web server and hosting of a website. Web Browsers: Introduction, commonly used browsers, browser settings, add-ons and plug-ins, cookies	<ul style="list-style-type: none"> Learn terminology related to networking and the internet. Identify internet security issues and configure browser settings.

Project Work:

The aim of the class project is to create tangible and useful IT applications. The learner may identify a real-world problem by exploring the environment. e.g., Students can visit shops/business places, communities or other organizations in their localities and enquire about the functioning of the organization, and how data are generated, stored, and managed.

The learner can take data stored in csv or database file and analyze using Python libraries and generate appropriate charts to visualize. If an organization is maintaining data offline, then the learner should create a database. using MySQL and store the data in tables. Data can be imported in Pandas for analysis and visualization.

Learners can use Python libraries of their choice to develop software for their school or any other social good. Learners should be sensitized to avoid plagiarism and violation of copyright issues while working on projects. Teachers should take necessary measures for this. Any resources (data, image etc.) used in the project must be suitably referenced.

The project can be done individually or in groups of 2 to 3 students. The project should be started by students at least 6 months before the submission deadline.

**SUBJECT – ARTIFICIAL INTELLIGENCE**

Month	Unit Name	Learning Outcomes
April	Part A: Unit I: Communication Skills IV	Students will be able to: <ul style="list-style-type: none">• Identify the barriers to active listening.• Identify the stages of active listening.• Follow the steps towards removing barriers for active listening.• Demonstrate basic writing skills.• Identify the basic parts of speech, such as nouns, pronouns, adjectives, verbs and adverbs.• Use capitalization and punctuation rules for sentences.• Explain the usage of parts of speech and identify them in a sentence.• Identify supporting parts of speech, such as articles, conjunctions, prepositions and interjections.• Identify the different parts of a sentence.• Differentiate between active and passive voice.• Compose different types of sentences.
May	Part A: Unit II: Self - Management Skills IV Part B: Unit II: Model Lifecycle	Students will be able to: <ul style="list-style-type: none">• Explain the meaning of motivation.• Describe the type of motives.• Differentiate between intrinsic and extrinsic motivation.• Describe the meaning of positive attitude.• Identify the steps for being positive in life.• Identify ways to be result oriented.• Make an action plan.• Explain the meaning of personality.• Describe basic personality traits.• Describe common personality disorders.• Different aspects of Model<ul style="list-style-type: none">• Train, test, validate,• What are hyper parameters• Commonly used platforms to build and run models (Introduction)• Recommended tools• Links to different platforms Watson• Lifecycle of an AI model<ul style="list-style-type: none">• Build• Deploy• Retrain
July	Part A: Unit III: ICT Skills IV	Students will be able to: <ul style="list-style-type: none">• Explain the importance and usage of spreadsheets, list different spreadsheet applications, open LibreOffice Calc and create a spreadsheet, identify components (parts) of a spreadsheet.• Identify type of data, open a spreadsheet, enter, edit and delete data, select multiple cells, save and close a spreadsheet, print a spreadsheet.• Add values directly in a spreadsheet, add values using formulas, add values using Sum() function, align (arrange) text in a cell, fit text into a cell, highlight the text.• Sort data, add filters, protect spreadsheet with a password.• Describe the advantages of digital presentation, list various presentation software, list features of a presentation, create a new presentation, save a presentation, close a presentation, open a presentation, print presentation slides.

	<p>Part B: Unit I: Capstone Project</p>	<ul style="list-style-type: none"> • Add a slide to a presentation, delete a slide in a presentation, enter and edit text in a presentation, format text in a presentation. • Insert shapes, insert clipart and images, change slide layout. <p>Understanding the problem</p> <ul style="list-style-type: none"> • Decomposing the problem through DT framework • Analytic Approach • Data Requirements • Data Collection • Modelling approach • How to validate model quality <ul style="list-style-type: none"> • By test-train split • Introduce concept of cross validation • Metrics of model quality by simple Maths and examples from small datasets – scaled up to capstone project (Apply) <ul style="list-style-type: none"> • RMSE- Root Mean Squared Error • MSE – Mean Squared Error • MAPE – Mean Absolute Percent Error • Introduction to commonly used algorithms and The science behind them • Showcase through a compelling story
August	<p>Part A: Unit IV: Entrepreneurial Skills IV</p> <p>Part B: Unit III: Story telling through data</p>	<p>Students will be able to:</p> <ul style="list-style-type: none"> • Explain the qualities of an entrepreneur. • What is entrepreneurship. • Identify barriers and fears related to becoming an entrepreneur. • Identify the attitudes that make an entrepreneur successful. <p>Students will be able to:</p> <ul style="list-style-type: none"> • The Need for Storytelling <ul style="list-style-type: none"> • Information processing and recalling stories • Why is storytelling important? • Structure that story! • How to create stories? <ul style="list-style-type: none"> • Begin with a pen-paper approach • Dig deeper to identify the sole purpose of your story • Use powerful headings • Design a Road-Map • Conclude with brevity • Ethics of storytelling • Types of Data and Suitable Charts <ul style="list-style-type: none"> • Text [Wordclouds] • Mixed [Facet Grids] • Numeric [Line Charts/ Bar Charts] • Stocks [Candlestick Charts] • Geographic [Maps] • Stories During the Steps of Predictive Modeling <ul style="list-style-type: none"> • Data Exploration • Feature Visualizing • Model Creation • Model Comparisons • Best Practices of Storytelling

September	Revision and Half Yearly Examination	
October	Part A: Unit V: Green Skills IV	Students will be able to: <ul style="list-style-type: none">• Understand the need of protecting environment• Understand Green jobs and its significance
November	Revision and Pre-Board I	
December	Revision and Pre-Board II
